

SUNRISE KITCHEN COLLECTION

Autumn lookbook — not a product specification

Warm mornings. Quiet counters. A gift for the season.

This leaflet is for retail display only. It does not list ratings, capacities, model codes, or factory details. Ask your buyer for the technical pack before you write a manual.

Visit aisle 4 this weekend. Members save on selected colours.

Campaign notes

Photography is lifestyle only. Do not treat props in the images as included accessories. Finish and colourways will be confirmed in the seasonal catalogue, not in this flyer.

Staff talking points: hospitality, giftability, and in-store demo slots. Leave engineering questions to the sourcing pack.
